

家用制氧机

应用

1. 氧疗：纠正病理性缺氧，作为疾病辅助治疗手段。
2. 氧保健：用于补充繁重脑力劳动者、老年人、孕妇和慢性病康复期病人的生理性缺氧，以及补充各种环境性缺氧，预防缺氧。

技术参数

1. 氧气流量：5~6L/分钟
2. 氧气浓度：30%±3%
3. 功率：50W
4. 电源电压：220V
5. 电源频率：50HZ

Household Oxygen Generator

Application

1. Oxygen therapy: Correct pathologic hypoxia as an adjunctive treatment for disease.
2. Oxygen health care: it is used supplement the physiological hypoxia of heavy mental workers ,the elderly ,pregnant women and patients in the recovery period of chronic diseases ,as well as to supplement various environmental hypoxia prevent hypoxia.

Specification

1. Oxygen Flow: 5~6L/min
2. Oxygen Concentration:30%±3%
3. Power :50W
4. Supply Voltage:220V
5. supply frequency: 50HZ
